Delta offers a variety of professional services with the customers' best interests in mind. These services include items such as machine & press foundations, steel slitting lines, general building maintenance & construction, concrete flatwork and steel design, fabrication & construction. With the diversity of construction knowledge that Delta brings to the jobsite it quite simply **GUARANTEES** success in all facets of the project, regardless of the scope of the work.

Delta is a full-performance company, able to control every aspect of the construction process. By holding outside rentals and subcontractors to a minimum, Delta excels at quick-response times and meets compressed project timelines.

Delta's in-house engineers design and produce CAD drawings to ensure design reliability and longevity of construction, with precision results. They will use the drawings of your newly acquired machine and work with you to generate a foundation specifically tailored to accommodate your company's individual needs. In addition, Delta can also provide specialized services such as soil and vibration testing. These specialized tests can assist in assuring that your foundation is properly designed to accommodate all applicable loads, meeting or exceeding warranty requirements specified by the machine manufacturer.

Drawing on over 30 years of professional experience, Delta is well versed in a variety of construction services. From concept through design to finished product, Delta provides in-house services to accommodate all of your industrial contracting needs.

Delta Industrial and Tier One Automotive Suppliers share robust relationships, year after year.

North Vernon, IN — Delta Industrial was awarded the contract for the installation of a Fagor press pit. Delta provided design for the press foundation with the scope of work that included open cut excavation, waterproofing, tie-in, and extension of the existing scrap tunnel with structural tunnel top, tie-rod sumps, bolster foundations, looping pit, furnish and install of embedded steel, and utility trenches. For this major T1 Supplier it was just another in a string of successes with Delta Industrial in the last decade. Complete industrial contracting relationships.
