

Global OEM chooses Delta Industrial for advance, concrete and steel design.

Ooletwah, Tennessee — Delta Industrial provided the design and installation of a PAMA milling machine foundation and an advanced light and heavy shoring system. A continuous pour of the thick mass foundation was required for the base. This project also included furnishing and installing of the steel embeds, grouting of machine anchor pockets, wet curing the foundation, and consisted of 1,500 CY of concrete. Boom! Delta Industrial, the edge of the art, for industrial construction contracting solutions.

About Delta Industrial:

Delta Industrial is a “design-build” specialist, offering a variety of professional contracting services, including machine foundations, press pit foundations, slitting line foundations, general building maintenance & construction, concrete flatwork and steel fabrication & construction. With the diversity of construction knowledge that Delta brings to the job site, it quite simply **GUARANTEES** success in all facets of the project, regardless of the scope of work. From concept through design to finished product, Delta provides in-house services to accommodate all of your industrial contracting needs.
